# Prices Tend Downward in Face of Optimism.

Grain Yield Estimates Grow With Threshing Returns.

Railroad Earnings Near Record--The Influence of Balkan War.

New York, Nov. 3.-Withdrawal of New York bank funds for interior needs continued, last week, with detrimental effect on values of securities The dull stock market of the past sea son had pointed to less than the usua speculative employment of the bank deposits left temporarily idle in New Yerk banks, yet the pull of the erep moving requirements serves to force holdings on the stock market.

Prices tended downward, therefore in the face of apparently assure promise of expanding prosperity. Signs of that prosperity were added in the week's news. November disbursements of profits in the shape of dividends and interest shown expansion of more than \$13,600,000 over the same date, last year Returns from wheat threshing and

corn husking raised the estimates of the grain yield. Ráilroad earnings indicated record returns in many cases After a brief reaction the movement of grain to markets, both west and east, again expanded to nearly record figures. Accumulations of grain have been prevented but are feared at later stage when a longer tieup o loans may follow. Railroads continueager buyers of equipment and material for repairs, reflecting the pressur on their facilities and also the addition to resources available for such The country's bank clearings and the extent of the bor rowing demand and the requirements of the circulation witness the activity of trade.

The dislocation of the relief antici pated by recourse to foreign mone, markets continued to influence the financial markets, with the rapid course of events in southeastern Europe. The New York market's sensativeness to those events testifies to the close bond in which all the financial markets are united. Reports of an aggressive stand by Russia er Austria which seems to threater the Balkan relations caused a tremor in New York in connection with European markets.

The rise in the official discount rate of the Bank of France to 4 per cent. after the conclusion of the settlement was an unsettling influence. This rate has nto been touched since the panie of 1907 in New York) Incursions conon the London markets' gold supply, pointing to a possible further rise in the Bank of England rate. Ninety-day loans in New York in some cases have commanded a pre mium for the first time since early in 1908. A sudden turn in the European situation for the better or on measures of money market relief by the United the money stringency.

Several events that are awaited help to account for the speculative hesitation. The Monday sessions of the supreme court are followed by hardening prices, suggestive of anxiety over expected decisions. The report of the arbitrators on the demands of eastern railroad engineers is looked for soon and great importance attaches to it. The easier tone in copper and in steel is not without influence. The September quarters earnings of the United States Steel Corporation equalled but did nto exceed expectations. The action of the market following the election is a subject of curiosity but of no apparent excitement.

## **Denver Heiress** Jilts Britisher.

New York, Nov. 3.-The engagement between Miss Ruth Boettcher, the Denver heiress of far-famed beauty, and L. Charles Huppert of London has been broken, according to a cabled report. It was only a little while ago that Miss Boettcher was reported engaged to another gallant and clever Englishman, Sir Thomas Lipton.

Miss Virginia Case, who is now staying at the Hotel Gotham, at 55th street and Fifth avenue, Miss Boettcher's most intimate girl friend, makes the denial to both rumors about the beautiful heiress.

As a matter of fact, Miss Case says, Miss Boettcher met Sir Thomas but once, and that was at a tea in London, two years ago. Miss Boettcher thought that Sir Thomas was "an awfully nice fellow," just as other people do, and Sir Thomas made no secret of the fact that Miss Boettcher was worth the solld weight of the \$5. 000,000 to which she is heir.

When the London papers came ou and said that the heretofore impervious heart of the sportsman-tea merchant had beer captured by the pretty Denver girl, and that the British dowagers, who had angled so assiduously on behalf of their daughters were saying mean things about Yan-

"In addition to the members of the National committee," said Senator Dixon, "I am also inviting to participate in the conference all chairmen of the different Progressive committees and all candidates of the Progressive party for Governor in the various states.

#### Democratic Hopes.

The forecasts from the respective national headquarters give in som detail the factors which the leaders of the respective parties believe will effect Tuesday's voting.

"Wilson and Marshall will have the largest majority of electoral votes given ton any candidate since the Civil war, said Chairman McCombs in the Demo cratic forecast. "They will receive also the largest popular vote ever given to a political party in the history of the United States. They will carry not less than 40 of the 48 states and are likely States treasury seems tthe only events to carry all of them. A unanimous vote in the electoral college will not surpriany man who has seen the confident r ports to Democratic headquarters in th last days of the campaign.

"Congress will be Democratic in both branches. The lower House will contain more than 100 of the combined opposition and in the Senate the Democrats will gain more than the 10 seats necessary to wipe out the Republican majority. The same sentiment that is sweeping Wilso into executive authority will back him up with legislative power to do the things the people demand."

"The fatal error in all the Democratic estimates is the assumption that Wilson will poll the Bryan vote of four years ago The Progressive party program has appealed mightily to the great industrial classes of the nation.

"Roosevelt and Johnson will sweep the big industrial centers with a landslide Wilson and Marshall have not appealed to the masses of the voters because they have not offered any plan of constructive statesmanship or legislation.

After Tuesday the Progressive party will be the domi nant opposing party to the Democrats Roosevelt will carry New York state by a plurality of 65,000. "All our reports and canvasses indicate - a great Democratic sweep in nation and state on Tuesday. The Empire State will give the Presidential and state tickets splendid majorities. Its Democratic representation in Congress will be substantially increased and both branches of the Legislature will be Democratic.

#### In New Hampshire.

Concord, N. H., Nov. 3.-The probable extent of the vote which Col. Roosevelt will receive in New Hampshire, Tuesday, was the most discussed question in state political circles, today. State chairmen prepared statements which devoted much attention to this point. While the Progressive leaders claim Col. Roosevelt will draw 25,000 votes, the Republican managers say the Progressive vote will not exceed 19,000. The Democratic leaders concede Col. Roosevelt a vote of from

15,000 to 20,000.

There were no rallies, today, but the national election was the theme of discourse in many pulpits of the state, Priests and ministers of all creeds took advantage of the closeness of the election to voice their endorsement of a nonpartisan movement which seeks absolute!

Princeton, N. J., Nov. 3,-Woodrow Wilson, tonight, wears a narrow strip of collodion across the top of his head covering a scalp wound three inches long, which he received, early today, in a motor car mishap on the way home from Red Bank, N. J. His automobile struck a mound in the road and jolted him up against a steel rib in the roof of the limousine car.

The wound is not serious and the Democratic Presidential nominee wili fulfil his speaking engagements in Paterson and Passaic, N. J., tomorrow night, and attend to his correspondence as usual, early tomorrow. Tonight, the Governor was in the parlor of his home, the center of a group of friends. There was nothing in his manner to indicate that he had met with any mishap. He said he did not feel the wound in the slightest degree and had not even developed a

headache from it. "I guess I'm too hard headed to be hurt," he said smilingly, as he received the correspondents. Dr. J. M. Carnochen, the Governor's family physician, who dressed the wound, issued the following statement about it, tonight:

"When I saw Gov. Wilson, this afternoon, I found he had received a inceration of the scalp about three inches in length. Otherwise he was in good condition and seemed to be suffering from no ill effects,"

No more complete demoralization of a team that had shown good football in the first half has been seen on Percy field in years. When Butler went out of the line-up at the end of the first half, Cornell's team seemed to go to pieces and it was all off. The secondary defense gave a frightful exhibition, O'Connor, Hill and Taber missing tackles that cost touchdowns, and finally Williams made big gains through the Cornell line, where in the first half they had been smeared. Except for O'Hearne at right end the whole Cornell team in the second half fell off badly.
